

Self Adhesive Aluminium Cable Clips CB420 & CB421

Self-adhesive aluminium cable clips which provide a quick and economical solution to various wiring problems. The clips are light and flexible, and hold cables securely without damage. The adhesive is supported in a polythene pad with peel-off protective backing which provides a high level of insulation, and forms a strong and permanent bond with any smooth surface such as metal, plastic, glass, wood etc.

Available in 2 sizes; small for cables of diameter up to 6mm, large for cable diameters up to 10mm.

Supplied in packs of 250 pcs.

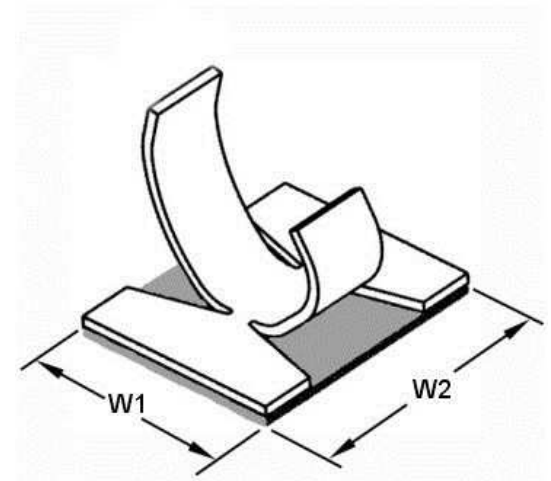

CB420

CB421
